4. FIRST AID MEASURES

Description of first aid measures

Eye Contact Rinse cautiously with water for several minutes. Remove contact lenses, if present and

easy to do. Continue rinsing. Immediately call a poison center or doctor/physician.

Skin Contact Wash off immediately with plenty of water for at least 15 minutes. Wash skin thoroughly

with mild soap and water. Wash contaminated clothing before reuse. If skin irritation

persists, call a physician.

Inhalation Remove to fresh air. If not breathing, give artificial respiration. Get medical attention if

symptoms develop and persist.

Ingestion Seek medical attention immediately. Wash out mouth with water. If conscious give 2

glasses of water to dilute. Stop if the person feels sick as vomiting may be dangerous. If spontaneous vomiting occurs, keep head below hips to prevent aspiration and monitor breathing. Never give anything by mouth to an unconscious person. Do NOT induce

vomiting.

Most important symptoms and effects, both acute and delayed

Symptoms Causes mild skin irritation. Causes serious eye damage. Inhalation symptoms may include

dizziness, headache, and nausea. Ingestion symptoms: causes damage to organs, optic

nerve, and central nervous system. Irritating to mouth, throat, and stomach.

Indication of any immediate medical attention and special treatment needed

Notes to Physician Treat symptomatically.
